Press release

Prix Versailles 2025: The World's Most Beautiful Hotels

Today, 2 June 2025, the Prix Versailles is announcing the names of the 16 projects included on the World's Most Beautiful Hotels List 2025.

The laureates, all of them newly opened or reopened, are located in very diverse parts of the globe. Each one stands out for its superlative blend of heritage and innovation.

Three hotels from the 2025 List will also receive the further distinction of a World Title – Prix Versailles, Interior or Exterior – to be awarded in December.

Jérôme Gouadain, Secretary General of the Prix Versailles, is thrilled with this year's selection:

"The common thread between these sixteen extraordinary hotels is the fact that they all elevate expertise and local heritage. But more than that, they are all the fruit of extremely advanced design work, a reflection of clear, across-the-board collaboration between their creators and their regions. The artistic approach serves hospitality here by shining a light on its multiple influences and adding a touch of warmth, clarity and meaning, in order to construct what are undoubtedly some of the most beautiful destinations in the world."

The architectural prizes discerned by the Prix Versailles aim to promote intelligent sustainability, in which culture serves and transcends the notion of the environment.

The next World Selections for 2025 will be announced on 16 June for Restaurants, on 23 June for Campuses, on 30 June for Airports, on 1 September for Emporiums, on 3 November for Passenger Stations and on 10 November for Sports.
